**Monthly Investment Report**

Mr. Simon presented the economic recap and financial performance for February 2014. After a difficult month in January, February saw positive economic data. Global stocks rose in February as U.S. and non-U.S. developed markets recouped January’s losses.

Market reaction in March has been negative due to the current situation in the Ukraine and Russia, as well as the Fed’s discussion around lifting the quantitative easing, which would cause interest rates to rise.

Total Fund performance (net of fees) for the month was **+2.78% (+.77% YTD)** and Net Investible Assets for the Total Fund are estimated at **$4.01 billion** as of February 28.

**PIMCO**

Mr. Simon and Mr. Cooley discussed current fixed income exposure with PIMCO. Bill Gross has been assigned as portfolio manager for FPPA’s account. FPPA’s Investment Staff continues to closely monitor PIMCO.

At 9:42 a.m., Vice-Chair Bower joined the meeting.

Staff will also closely monitor the PIMCO Total Return Fund in the Self-Directed Plans Committee portfolio.

**Commitment Pacing**

Mr. Simon reviewed the portfolio construction of the Alternative Growth Investments ("AGI") Class - Private Equity, Private Credit, Real Estate and Real Assets - and the recommendation of an Annual Commitment Pacing Plan which details the anticipated commitment level across the AGI Class.

- For 2014, $200 to $250 million ($45 million committed to date, $160 million remaining)

Mr. Bower moved to approve the recommendation of the 2014 Annual Commitment Pacing Plan. Mr. Bomberger seconded the motion. The motion passed.

There was some discussion surrounding the possibility of adding infrastructure investments. The Board discussed the positive attributes relative to known risks of infrastructure investing. Mr. Slack also pointed out concern surrounding potential political interference in public infrastructure investments.
**Total Return Swaps**

Mr. Simon communicated the Investment Staff’s support that total return swaps would be an appropriate and beneficial tool in the management of Total Fund exposures and will continue to work with Russell Investments in the development of policies and procedures to govern its implementation. The Investment Staff sought Board approval to establish an agreement and documentation with Russell to allow FPPA to utilize total return swap agreements.

Mr. Stanton moved to allow the Investment Staff to begin a formal process with Russell Investments to utilize total return swap agreements, pending the development of policies and procedures to govern its implementation. Mr. Bower seconded the motion. The motion passed.

Staff identifies with Manulife Asset Management’s strong global investment presence, the depth of its fixed income capabilities, and the strength of risk and operational infrastructure.

At 10:55 a.m., Misters Janis, Zielinski, and Eversole of Manulife joined the meeting.
